

Adding a source, whatever the order: big boost on the newcomer, everyone else barely moves

NM 3-shot / 30-way · matched step 40k · within-balanced · Δ regret gap between consecutive rungs = Δ AUC (best-per-graph reference cancels)

bar = mean over orders A/B/C at that merge size, whisker = min/max over the three orders · the newcomer differs by order · the out-of-mix upside is order C's headroom recovery
